

Front End Technologies Week 7 Coding Assignment

Points possible: 75

URL to the YouTube Video : <https://youtu.be/RhJBLS25Ci0>

URL to GitHub Repository: <https://github.com/ValeriaMontano/HTMLWeb.git>

Instructions: In VS Code, or an IDE of your choice, write the code that accomplishes the objectives listed below. Ensure that the code compiles and runs as directed. Take screenshots of the code and of the running program (make sure to get screenshots of all required functionality) and paste them in this document where instructed below. Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository. Add the URL for this week's repository to this document where instructed and submit this document to your instructor when complete.

Coding Steps:

1. Create a website using only HTML. The website can be anything you like (within school guidelines) as long as it meets the following criteria – website must contain:
 - a. At least 3 pages
 - b. Links to navigate between all pages present on each page
 - c. A list
 - d. 3 images
 - e. 2 different size headers
 - f. A table
 - g. A form

Screenshots of Code: Please see below.

Screenshots of Running Application: Please see below.
